

A NATION'S TRIBUTE TO GENERAL GRANT

SPLENDID CEREMONIES AT THE TOMB TODAY.

All America Represented at the Dedication—President McKinley Makes a Brief Address—Imposing Procession of Troops from the Various States—Was a Patriotic Event.

New York, April 27.—All day Monday soldiers of the regular army and national guard marched through the handsomely decorated streets of New York from the railroad stations and

ferry landings to their quarters. Every train brought notable people to the city, among the arrivals being President McKinley, Vice-President Hobart, the cabinet officers, members of the diplomatic corps, senators, representatives and governors of states. Late in the evening the last of the foreign warships, the Italian cruiser Dogali, steamed into port.

President McKinley and suite came from the national capital in a splendid special train which ran over the Pennsylvania railroad. Besides the chief magistrate, the most distinguished person in the party was the widow of the great soldier, Mrs. Grant, with her daughter, Mrs. Sartoris, and the latter's children. Mrs. Grant has fully recovered from her recent indisposition and expressed herself as being touched by the homage paid her late husband.

Another distinguished party of statesmen left the national capital at the same hour by the Baltimore & Ohio railroad. The sumptuous special train carried the vice president and Speaker Reed, twelve or fifteen senators and an equal number of members of the house. Both the vice president and the speaker were provided with special cars, placed wholly at their disposal.

Everything was ready for the dedication of the massive tomb in Riverside park in which rests the remains of America's great soldier, Ulysses S. Grant. Weeks ago it was estimated that 1,000,000 persons would come to New York to witness the parade and ceremonies of the dedication of the

tomb, and that number was largely exceeded. More people witnessed the great parade than will see the queen's show in London next month. In making up the parade the grand marshal, General Grenville M. Dodge, excluded many civic bodies which asked for places, and gave room to the regular militia of the several states and the Grand Army and kindred organizations. The white squadron lay in the North river opposite the tomb, and the foreign war vessels anchored below.

The exercises of the day were carried out precisely as arranged weeks ago. The president and other distinguished guests left the Fifth Avenue hotel at 9:20 a. m., and, escorted by a squadron of cavalry, proceeded to the tomb, where a stand in the open air had been set apart for them.

At 10:30 a. m. the head of the parading column moved from Madison Square. At 11 o'clock the exercises at the tomb, prayer, singing by a great choir, and speeches began, and at 1 o'clock p. m., when the bands of the procession were heard, the exercises concluded.

President McKinley's address at the tomb was very short. Its delivery occupied five minutes.

The procession was composed of 60,000 marching men, most of them militia and regular soldiers, uniformed societies and cadets, with 10,000 singing schoolboys bringing up the rear. The regular troops under Gen. Merritt numbered 2,500, and they were followed by 1,500 sailors and marines. The national guard of New York turned out 13,000 men, with the governor leading them. Five thousand came from Pennsylvania, 4,000 from New Jersey, 500 each from New Hampshire, Vermont,

Massachusetts, Connecticut and Rhode Island, 1,000 from Maryland, 700 from Virginia, mostly the sons of Confederate soldiers, 400 from Washington, 1,200 from Ohio and battalions from several other states. Gen. Howard commanded a division of 10,000 Grand Army men and veterans, and the Knights Templars and other civic societies in uniform numbered as many more.

DEATH OF THEO. HAVEMEYER

Sudden End of the Vice-President of the Great Sugar Trust.

New York, April 27.—T. A. Havemeyer, vice president of the sugar trust, died at 3 o'clock a. m. Monday. Mr. Havemeyer returned a few days ago from a trip to St. Augustine, Aiken and Old Point Comfort. Changing from a warm to a colder climate, he took cold and the grip rapidly developed. Wednesday the physicians agreed that the patient's condition was not at all serious. Sunday night Mr. Havemeyer's condition changed for the worse.

Mr. Havemeyer was a member of the sugar refining firm of Havemeyer Bros. He also acted as consul in this city for Austro-Hungary.

Theodore A. Havemeyer was the grandson of the Havemeyer who founded the great sugar industry which he and his brother have inherited. Although an American, Mr. Havemeyer was really more of a foreigner than a Yankee. He lived most of his years abroad and was decorated by the Austrian emperor with the order of Leopold. He was born in New York city in 1839. He was a brother of Henry O. Havemeyer, the president of the company. Theodore at an early age began work in his father's refinery and learned all the details of the sugar refining business. He was admitted into partnership in 1861, and soon afterward opened a refinery of his own, which was merged into the general company when the trust was formed. Mr. Havemeyer added to his millions money made in the banking business, and by wise dealings in real estate. In 1863 he married Miss Emile de Looze, daughter of Sir Charles F. de Looze, and had nine children. He lived in a palace on Madison avenue, New York.

Railway Station Blown Up.

London, April 27.—A tremendous explosion occurred on the underground railway at 5:30 o'clock Monday evening as a train filled with men from the city was making its usual stop at the Aldersgate station. The glass roof of the station was blown out and the platform was strewn with debris. A first-class coach was completely wrecked, and its occupants badly hurt. Ten of the injured were found to be in a precarious condition, and were removed to hospitals. A number of persons who were standing on the platform were also hurt. The cause of the explosion is not known, but it is believed to have been the result of an accumulation of gas, which became ignited in some way.

Suicide Is Suspected.

Chicago, April 27.—John S. Sheldon, president of the Sheldon bank at La Grange, Ill., has been missing since last Friday, and it is thought he committed suicide by jumping into Lake Michigan. Mr. Sheldon came to Chicago last Wednesday and went to the Tremont House. Friday he left, but before going away he wrote two letters and had them placed in the box which held his room key. The letters that had been left in the key box were opened. One of them was addressed to J. H. Moffatt, Paxton, Ill. Mr. Sheldon said in the letter that he was tired of living and intended to commit suicide.

Three Appointments from Ohio.

Washington, April 27.—The president Monday sent the following nominations to the senate: State—Wm. R. Day of Ohio, to be assistant secretary of state; Bellamy Storer of Ohio, to be envoy extraordinary and minister plenipotentiary to Belgium; George M. Fisk of Ohio, to be second secretary of the embassy of the United States at Berlin; Huntington Wilson of Illinois, to be second secretary of the legation of the United States at Tokio, Japan.

Philippine Islands Not Quiet.

Madrid, April 27.—A dispatch to the Herald from Manila, capital of the Philippine islands, says that 25,000 insurgents, who have not submitted to the Spaniards have taken up a position in the mountains, and are offering a stout resistance to the troops. The recall of Gen. Povalleja, it is added, has produced a bad impression in the Philippine islands.

Protest Against American Competition.

Paris, April 27.—The French olive oil producers, finding themselves unable to meet the competition of the cheaper cotton seed oils from America, have begun an agitation to have the tariff increased from 3½ cents a gallon to 7 or 8 cents. America sent to Marseilles last year 112,627 barrels of this oil, or nine-tenths of the entire amount imported.

Consuls Are in Danger.

Constantinople, April 25.—(Delayed in transmission).—The news sent from Janina, Epirus, by the foreign consuls, shows the situation there to be precarious. The consuls there barricaded their residences and troops have been dispatched from Monastiri against the mutinous Albanians.

Upholds Indeterminate Sentence.

Joliet, Ill., April 27.—In a lengthy opinion filed Monday Judge Dibel, in the circuit court, held that the indeterminate sentence law was valid, &

WANT NEW LEADERS TO TAKE CHARGE

GREEKS DISSATISFIED WITH THEIR COMMANDERS.

Ex-Minister Ralli Says the Disaster at Larissa Was the Result of Incompetence and Cowardice—"Orderly Retreat" Was an Utter Rout—The War's Progress.

London, April 27.—The most serious feature in the Graeco-Turkish emergency is the revolutionary feeling displayed at Athens. Ex-Minister Ralli, leader of the principal opposition group in the legislative assembly, threatened that unless the military staff was changed he would issue a proclamation to the people. His statements acted like oil upon fire, and the popular excitement has flared up. Crowds assembled in the streets to discuss them and wanted to march to the palace to read them to King George. Fortunately, heavy showers drove the people indoors.

M. Delyannis, keenly alive to the necessity of immediate action, had an audience with the king, and after the interview announced that the staff of the crown prince would be recalled and that ex-Minister Ralli, with three of his nominees—Gen. Smolenski, Gen. Mavromichali and Col. Dimopolou—would be appointed to replace them.

The Daily Telegraph's Athens correspondent says: "All of M. Ralli's conditions have been accepted. The king gives carte blanche to his ministers. As the public begins to learn the truth, anger against the palace party increases, and a feeling of hostility against M. Delyannis is steadily growing. Late to-night (Monday) crowds are parading menacingly in the vicinity of the palace."

"It is reported on good authority that arrangements are being made to enable the royal family to leave the country hastily in case of necessity. People had generally credited the rumors that the crown prince would be recalled, and that the government was willing to consider peace overtures. It is impossible to say what will happen when it is known that the war is to be continued and the crown prince retained in command."

The correspondent of the Times at Volos, in a dispatch dated Saturday, says the general impression there is that the campaign is ended and that the center of interest has been transferred from the seat of war to the diplomatic chancelleries of Europe.

The dispatches of the special correspondents consist for the most part of additional details of the Greeks' discomfiture. The Turkish plans are not yet revealed. There is no doubt now that Crown Prince Constantine ordered the bridges to be destroyed before the Greeks abandoned Larissa, but damage could not be done beyond what could be easily repaired by the Turks. It seems equally certain that the Greeks only escaped a crushing defeat with returning daylight by precipitate flight. The news from Epirus is conflicting. It seems certain that the Turks have occupied Pentepigadia, and it is not improbable that the Greeks have retreated to Arta, showing that the Turks allowed them to advance to Pentepigadia solely in order to destroy the column.

Greece Asks No Help.

Paris, April 27.—The Berlin correspondent of Figaro telegraphs that it is semi-officially announced there that Greece will neither solicit nor accept the intervention of the powers, and is preparing to negotiate direct with Turkey.

Big Railway Men Indicted.

New Orleans, La., April 27.—The federal grand jury Saturday found four indictments against prominent officials of the Southern Pacific road for violating the interstate law. Those indicted were J. C. Stubbs, third vice-president of the road, with headquarters at San Francisco; William Mahl, second assistant to the president, with headquarters in New York; C. W. Bein, traffic manager, with headquarters in Houston, and H. A. Jones, general freight agent at Houston. Captives were immediately made out and placed in the hands of the deputies to be served, but as the men are all non-residents it is likely that they will be allowed to come here at some fixed time to plead.

To Ignore Judge Showalter.

Indianapolis, Ind., April 27.—Attorney General Ketcham for the state and the attorneys for the city of Indianapolis refuse to abide by the decision of Judge Showalter of Chicago that the 3-cent law is unconstitutional. The attorney general announced that he will have a test case before the supreme court of the state in a few days, and added: "And we shall take the case there without the consent of the United States court." The federal authorities intimate that if there is any effort to push a case in the state court some one will be put in jail for violating the injunction of Judge Showalter.

Shanley to Be Shifted.

Washington, April 27.—Mgr. Martini, the apostolic delegate, has received official notice from Rome that the title and residence of the present see of Jamestown, N. D., is to be removed to Fargo, N. D. The see embraces North Dakota, with Bishop Shanley in charge.

DISTRESS GROWING AS WATER RISES

IOWA FLOOD SITUATION BECOMES WORSE.

Unprecedented Rise of the Des Moines River Below Ottumwa—Live Stock Drowned at Quincy, Ill.—Five Hundred Families Are Homeless at Keokuk.

Ottumwa, Iowa, April 27.—The Des Moines river is higher than ever was known before and fifteen inches higher than during the famous flood of 1892. All small streams in southern Iowa also are out of the banks. Bridges are gone, communication by highway cut off, and railroad traffic almost at a standstill. Damage to railroad property is incalculable. Nothing will be known until the water recedes.

Eddyville, eighteen miles north, is under water, with 150 houses vacated. The people have been riding in the main business streets in boats.

In Ottumwa no less than 300 families were compelled to move and many were rescued in boats, so rapid was the rise. At midnight Sunday the river began to rise again, and rose fifteen inches by morning. Levees gave way, railroad tracks were undermined, and people were compelled to rise and flee from their homes.

At South Ottumwa, where 5,000 people live, the river flows parallel with the main street. It broke across this street early Monday morning and poured down residence and business streets, causing a panic and a scramble for higher lands. Most household goods and stocks in stores were saved. Men worked all day and are working still trying to stop the water and prevent breaks in other places. In Central addition the water is up to the roofs of houses. In Stiles addition the water is five feet deep in the main street. In Shickville, a western suburb, the water is up to the eaves of houses, and has moved several from their foundations.

Water in Fairview stands four feet deep in the fair ground, and nothing but right of way fences can be seen along the Burlington & Rock Island tracks. Both above and below the city farms are flooded. In some places the water has a width of five miles.

FLOOD AT QUINCY.

Mississippi Still Rising—Levees Are Under Severe Strain.

Quincy, Ill., April 27.—The Mississippi flood is still rising and the situation is alarming. The stage is 18 feet 2 inches, a rise of seven inches in twenty-four hours, and only fourteen inches below the disastrous flood of 1888. The levees are still intact, but there are grave fears of breaks, which would result in thousands of dollars of loss. Hundreds of heads of stock have been drowned, for the current over the submerged bottoms is very swift, and in most places the water is eight or ten feet deep.

The town of Alexandria is all under water except a narrow strip of land about twenty feet wide and 500 feet long, and the whole population of the town is camped on that little island. Steamboats are taking them off as fast as possible. The town of Canton, Mo., is also submerged, and the only way to get through the streets is in boats.

Five Hundred Families Homeless.

Keokuk, Iowa, April 27.—Only twice before is there record of the Mississippi having been higher here than it reached Monday, and never before has it been higher at points directly south of here—below the mouth of the Des Moines river, from which stream the present flood comes. The levee which protected Gregory has broken, and the water flows in a torrent through the town. All the people on the bottom lands have been driven out, and 500 families are homeless. There has been no loss of human life, but considerable stock has been drowned, and boats are plying through the fields removing animals to places of safety. The levees on the Illinois side have held well so far.

Anxiety at Hannibal, Mo.

Hannibal, Mo., April 27.—Flood conditions are becoming alarming. The damage already has been considerable and is being increased every hour. A large force of men has been working on the Sny levee for the last three days, day and night, endeavoring to strengthen it as much as possible. Farmers are moving their stock and grain to high lands.

Railroad Bridge Forced Out.

Kansas City, Mo., April 27.—One span of the Northwestern railroad bridge at the mouth of the Kaw has been forced five inches out of plumb by a great mass of driftwood that has settled at the west end.

Missouri Town Water Bound.

Maryville, Mo., April 27.—The town is almost completely water-bound. The floods are the worst ever known in the county.

Honor Rev. Edward Everett Hale.

Boston, Mass., April 27.—The Channing Club gave a reception to Rev. Dr. Edward Everett Hale Monday evening at the Brunswick in honor of his recent birthday. He made a short address, and was followed by Rev. Philip S. Moxom of Springfield, Rev. Dr. George H. Hughes, Mrs. Bernard Whitman and Frederick B. Nazro of Boston.

THE BANK WAS INSOLVENT

Sensational Disclosures Are Promised by the Senate Committee.

Chicago, April 27.—Probable action of the grand jury, the desperate condition of the Globe Savings Bank since 1892, the immense loans of the institution to its officers, the inability of C. W. Spalding to furnish bonds and his day in jail are the features of the failure now interesting the state's inquirers. It was developed during the senate committee examination of yesterday that with a capital of \$200,000, money aggregating \$248,250 had been loaned to Spalding, Hayes, Camp and Harlan, while ex-Gov. Altgeld (the then vice-president), Ford, Kimball and Lanehart were borrowers to the extent of \$136,275.

In the grand jury room it was decided not to begin the work of delving into the Spalding failure until to-day. One of the jurors, in discussing the matter, said that the latter part of the week was to be devoted to the Globe failure.

It developed at the afternoon session of the senate investigating committee that the Globe Savings Bank was not in a first-class condition in 1892; that when it was examined by W. M. Robertson the latter part of that year, John P. Altgeld and those associated with him were indebted to the bank over \$135,000, and that the officers and directors owed the concern more than the total amount of the capital stock.

Wrecks a Bank and Bond Company.

Atlanta, Ga., April 27.—Harry H. Cassin, cashier of the Georgia Savings, Loan and Banking company, who confessed to being a defaulter to the extent of \$15,000, and whose friends had agreed to pay up his shortage to keep him out of jail, is behind the bars of Fulton prison. At a meeting of the board of directors of the institution which was robbed, a brief examination of the books was made and this resulted in the discovery that the bank, which was supposed to be one of the most prosperous in the state, had barely a cent's worth of assets. Instead of the shortage being \$15,000 it will be several times that sum, and instead of young Cassin's being the bearer of the entire guilt it is now certain that at least one other conspicuous official will share a cell with him within the next few hours.

Will Strike May 1.

Chicago, April 27.—Five unions in the building trades have declared in favor of a general strike on May 1. They are: The Derrickmen's Union, Bridge and Structural Ironworkers, Journeymen Plumbers' Protective Association, Junior Steamfitters' Union, Hod-Carriers and Building Laborers. The officials of the Building Trades Council believe the several grievances will be settled in favor of the workmen without much difficulty. It is admitted, however, that a prolonged strike in any of the unions involved would soon precipitate a general walk-out, which would put a stop to building operations.

The Illinois Legislature.

Springfield, Ill., April 27.—In the house Monday Mr. Merriam presented the report of the special committee appointed to inspect the executive mansion. The committee says it found the mansion in a deplorable condition. Some new bills were introduced. In the absence of Lieutenant Governor Northcott and President Pro Tempore Fisher Senator Littler called the senate to order at 5 o'clock. There was not a quorum present, and immediately after the reading of the journal an adjournment was taken until 10 a. m. to-day.

Remedy for Iowa Poor Tax Law.

Des Moines, Ia., April 27.—A curative act was passed by both houses Monday amending the law fixing the levy of taxes by striking the words "including support of the poor" out of the section governing the levy for general county revenue. The law at present provides for the levy of four mills for county revenue, "including support of the poor." In another statute it is provided that if this is not sufficient an additional tax of one mill may be levied as a "poor tax."

Chicago Bank Gone Up.

Chicago, April 27.—Schaar, Koch & Co., private bankers and real estate brokers, No. 2603 South Halsted street, after trying for several weeks to continue their business in spite of large withdrawals of deposits, went into the hands of a receiver yesterday morning, and \$50,000 in deposits, all that is left of nearly \$140,000 originally deposited with the firm, is tied up, in the opinion of the receiver, for a long time to come.

Said to Be Short.

Indianapolis, Ind., April 27.—Benjamin H. Prather, who was clerk in the lower house of the last legislature, is said to be short \$5,000 in his accounts with the Commercial Travelers' Mutual Accident Association, of which he was secretary and treasurer. His resignation has been accepted, and experts have been appointed to examine his books.

Maher Knocks Out O'Donnell.

Philadelphia, Pa., April 27.—Peter Maher again demonstrated his ability to whip Steve O'Donnell by practically knocking him out in the sixth round of their bout at the arena of the Quaker City Athletic Club Monday night.

A "BUSTED" BOOM GETS INTO COURT

SUPERIOR CONCERN IN A RECEIVER'S HANDS.

Judge Jenkins Names Solon L. Perrin To Take Charge of the Affairs, and Wound Up the Consolidated Land Concern, Which Owes About \$650,000—Logs Let Loose.

Madison, Wis., April 27.—Solon L. Perrin was appointed by Judge Jenkins in the federal court receiver for the Superior Consolidated Land Company Monday on application of Spooner, Rosencrantz & George of Milwaukee, representing the estate of Thomas Scott of Philadelphia, with a judgment of \$10,000 against the land company. His bond was fixed at \$50,000. The company has a capital stock, said to be paid up, of \$3,600,000, and owns the greater part of East Superior. The collapse of the boom and stringency of the times involved it in financial difficulties, and its secured indebtedness aggregates \$650,000, of which \$300,000 is taxes, while its floating indebtedness is said to foot up about \$200,000 more. Great Log Boom Burst.

Superior, Wis., April 27.—Three bridges were washed away Sunday night by the breaking of a 1,000,000-foot log jam and gorge on the Amnicon river, twelve miles from this place. The greatest damage was done to the iron bridge at the head of the St. Croix river, the loss being about \$9,000. The damage to the other bridges and the loss of logs will aggregate \$20,000. It is feared that several million feet of logs, which are now tied at various points along the stream, will be lost.

CONFESS TO SPICER MURDER

Indian Boys Tell How Family of Five Was Killed at Winona, N. D.

Bismarck, N. D., April 27.—Two Indian boys, Paul Holytrack and Philip Ireland, have confessed to the authorities at Fort Yates that they were at the Spicer place at the time the family of five was murdered, and they have made a statement implicating themselves as well as the half-breeds, Blackhawk and Caddotte.

The boys say the murder was planned some weeks before it was committed, and that Blackhawk was the leader. The four went to the Spicer home on the day of the murder, Blackhawk and Caddotte going to the barn and the two boys to the house. At the barn the two men found Spicer, and Blackhawk shot him and then split his head open with an ax. Caddotte then ran to the house and told Mrs. Spicer that her husband was sick at the barn. As soon as Mrs. Spicer appeared at the barn door Caddotte stabbed her through the heart with a pitchfork. Caddotte then went to the house and found Holytrack engaged in a terrific struggle with Mrs. Rose. Caddotte picked up an ax and dealt each of the twin babies a death blow. The two Indians then had no trouble in killing Mrs. Rouse. About \$62 in money was found and divided by the four wretches after the completion of their bloody work.

Public sentiment in Emmons county is at fever heat, and it is more than probable that all four implicated will be lynched.

Glassblowers Secure an Advance.

Pittsburg, Pa., April 27.—The window glass blowers and gatherers have won an important point in the matter of equalizing wages. At a meeting of the executive board of the Window Glass Workers' Association here a resolution was adopted granting an advance of 15 per cent to the single strength blowers and gatherers and 8 and 10 per cent to those working double strength glass, according to the size. This advance is to be given before the flatteners and cutters receive any advance. After that any increase in the wages is to be general.

THE ORDER'S BIRTH

CELEBRATION AT THE ARMY
LAST EVENING.

A Very Entertaining Program Was Followed by a Dance, and the Anniversary of American Odd Fellowship Was Duly Commemorated—Pathfinders Open Their Engagement.

Janesville Odd Fellows celebrated the seventy-eighth anniversary of the founding of American Odd Fellowship at the Army last night, the three local lodges joining in the event. The big room was tastefully decorated, and a dance followed the program. The floor was in charge of W. A. Jackson, F. H. Koebelin, Walter Rice, Charles B. Barnard, Benjamin F. Plowright and L. J. Jerg.

The committee of arrangements, who had the affair in charge, was made up from the three local lodges as follows:

Smith's orchestra furnished the music for the dancing, and also had several numbers on the program, which was as follows:

Jackson, while the principal address of the evening was by Rev. Robert C. Denison, pastor of the Congregational church. Mrs. J. B. Rentfrow Company's Opening.

Rentfrow's Jolly Pathfinders opened a week's engagement at the Myers Grand last evening, the bill being "Below Zero." The company is an exceptionally well balanced one and the audience was greatly pleased with their work. The play was a very funny one. J. N. Rentfrow took the part of Arnold Grubb, the tramp, and carried the part in a laughable manner. Grace Rentfrow as Katie Clover, won the audience, and, in fact, all the members of the company made hits. Tonight the play will be "The Devil's Gold Mine," a sensational melodrama.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which Is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Careless causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhages occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It attacks the inflammation immediately, heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials we have lately received: Mrs. M. C. Hinkly, 601 Mississippi St., Indianapolis, Ind., says: "Have been suffering from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure."

Major Dean, of Columbus, Ohio, says: "I wish to add to the number of certificates as to the benefits derived from the Pyramid Pile Cure. I suffered from piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectively cured me."

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

Motor Cycles.

"Quite a number of electric 'buses have appeared in the city recently," says "Sporting Life" of London, "and plied for hire. They have been well patronized, it is said, doubtless because of their novelty, and there will be people congratulating themselves that they will be able to boast in the future of having ridden in almost the first public vehicles of this description to appear on the streets of London. An accident occurred the other day which points to a very misguided opposition to the electrical 'buses on the part of drivers. One of the 'buses appears to have endeavored to cut between a couple of vehicles to which horses were attached, whereupon the drivers of the horses apparently performed a feat familiar to any one who has driven in town—by drawing in from either side and shutting the 'bus out. If the latter had itself been drawn by horses, the unfortunate steeds would probably have been grazed, and their driver would have had to draw them back on their haunches, with no good effect either to the steeds or his temper. But as it was the electric 'bus simply chipped some pieces out of the quadrupeds that were pulled around into its path, and their drivers immediately realized that one of their time-honored methods of procedure had failed them." In France motor vehicle races are becoming commonplace, and in Paris the motor cycle has ceased to be a novelty.

The Mexican Situation.

"A. E. Trachsel, of the City of Mexico," says Ed. Sooner, "was a recent visitor in this city, and while here talked entertainingly of the racing situation in Mexico. The Mexicans are anxious for some of the prominent American racing men to pay them a visit, and Mr. Trachsel thinks that a side trip from the southern portion of the national circuit, after the manner of the Canadian trip of the 1895 circuit, would be a paying investment for the circuit chasers. There is a first-class cement track in the City of Mexico, and good racing there would be supported. Racing in Mexico is conducted without the semblance of official control, but the National Cyclists' Union controls the track and practically manages the sport in that country. The only table of records is kept by this club, and the Mexican marks are so easy that any good man going in there would have them at his mercy. The mile record is 2:19-2-5, and the competitive mile stands somewhere near 2:12. Monte Scott is there now, riding every Sunday, at the regular meets, and winning with ease. His prizes amount to about \$50 a week, and in addition he earns a salary."

THE RAILROAD STORY AGAIN.

The Electric Line Company Files Articles of Incorporation.

A Madison dispatch revives the old story of the electric railway to Wisconsin's lake region. The dispatch says:—Secretary of State Casson licensed the Wisconsin Inland Lakes & Chicago Railway company to do business in Wisconsin. The company is organized to construct, maintain and operate a line of railway from Chicago to Rhinelander, with branches to Milwaukee, Madison and Janesville, and in "such other cities, towns and villages in the state of Wisconsin and in the counties of Cook, Lake, McHenry and Kane in the state of Illinois."

The road is to be about 500 miles in length, and it is intended to be made into and through the counties of Kenosha, Racine, Walworth, Rock, Dane, Jefferson, Waushara, Milwaukee, Marathon, Dodge, Fond du Lac, Green Lake, Marquette, Waushara, Portage, Waupaca, Shawano, Lincoln, Langlade and Oneida in Wisconsin, and the counties of Cook, Lake, Kane and McHenry in Illinois. The capital stock is \$5,000,000, divided into fifty shares of common stock. The directors, who are also the incorporators have subscribed to one share of stock each. They are Bayard Taylor, William J. Marks, Jesse B. Barton and George E. C. Johnson, all of Chicago, and F. K. Bryant of Princeton, Ill.

THE JANESVILLE GAZETTE

THE OFFICIAL CITY PAPER

Entered at the postoffice at Janesville, Wis., as second class matter.

NO REASON TO COMPLAIN.

R publicans are well satisfied as they reviewed the record of the legislature. It was the strongest body the state has seen in years. It dealt with state questions vigorously and directly. Its work may be summed up briefly as follows:

Race track gambling suppressed.
The cigarette discouraged.
Medical quackery abolished.
\$20,000 saved in capitol salaries.
Reformatory established.
Civil service in cities.
Census supervised.
Corrupt practices checked.
Historical library completed.
Full educational appropriations completed.

Deficit state financing and borrowing of corporations stopped.

Normal school extensions approved.
The state fair reorganized.

A sub state fair authorized at Chippewa Falls.

Pullman and Wagner sleeping car companies made to pay about \$20,000 a year.

Telegraph, telephone and express companies forced to pay more into the state treasury.

Statutory revision provided for.

There was the usual talk about lobbying and lobbyists, but a glance through the list of bills passed shows how little the lobby influence weighed when important measures were involved. The failure of the anti-pass bill will be laid to the lobby, but it should be remembered that most of the men voting against the bill were thoroughly convinced of the justice of their position before they came within the field of the lobby. The bicycle baggage bill, the defeat of which wheelmen resent with some bitterness, falls under the same category, although additional excuses for its shelving are given in the promise of railroad companies to meet wheelmen half way.

The legislature was quick to check any increase in expenditures, and tax payers note with gratitude the pruning of salaries about the capitol. A saving of \$20,000 a year with no diminutions of efficiency is a subject for general congratulation.

The corrupt practice bill was passed in a form that entails less expense and confusion and promises as good results as did the original measure. The caucus law offers an improvement over present conditions, although it is by no means perfect, and is likely to undergo radical changes after two years trial.

Conservatism and caution led to the killing of several measures that might well have become laws. Assemblyman Wheeler's bill restricting the damage suit industry was denied a favorable vote for fear of the complications it might involve. The request of Gov. Scofield for a pardon board was put over for two years on the same grounds, and the bill adding water works companies to the corporations taxed on their gross receipts was killed by a decisive vote.

The legislature was not a talking but a working body. It put on the statute books a score of valuable measure and it kept off the books two thousand that can be well spared.

THE VALLEY OF THE SHADOW.

Harriet S. Ferris.

Mrs. Harriet S. Ferris, wife of George C. Ferris, died at her home, 114 Fourth avenue, last evening. She was attacked by the grip three weeks ago, but heart failure was the direct cause of her death. She was seventy-two years of age, and she had been a resident of Wisconsin since 1857. Mrs. Ferris was a member of the Congregational church of this city. She attended divine service for the last time on Easter Sunday, being at both the morning and evening service.

She was married to George C. Ferris on September 7, 1847, and had been looking forward with much pleasure to her golden wedding anniversary. She was a woman of many good qualities, and beloved by all who knew her. Besides the stricken husband, she leaves a family of six children, four daughters and two sons: Mrs. Dr. Roberts of Minneapolis, Minn.; Mrs. Severson of Rutland, Wis.; Mrs. George B. Osgood of Afton, Wis.; Mrs. George A. Crossman, Lucian P. Ferris and George H. Ferris, all of this city. The funeral will be held from the home Thursday afternoon at 2 o'clock.

Jacob Shekey.

News was received yesterday, announcing the death of Jacob Shekey, formerly of Johnson Creek, but lately of Humboldt, Iowa, where he was engaged in farming. He leaves three brothers and three sisters—Albert, Frank and Joseph and Mrs. Mary Seitz, Annie, and Fannie Shekey. Mr. Shekey will be buried at Humboldt, Iowa, his late home Wednesday morning. Mrs. Mary Seitz and Miss Fannie Shekey, sisters of Mr. Shekey, left Monday to attend the funeral.

John McKnight.

John McKnight, an old resident and quaint character of the city of Beloit, died Sunday at the county house, where he had lived of late. He was a very hard drinker for very many years and a laborer, yet he and a

bright mind and a great taste for literature. A few years ago he took the Keeley cure and became a thoroughly reformed man.

Luther Irish.

Luther Irish, aged fifty-eight years, a soldier in the seventy-seventh New York infantry, and an old resident of Beloit, died yesterday.

TO FORM A CIRCUIT OF COUNTY FAIRS

MEETING HELD IN THIS CITY TODAY.

Plan is To Arrange Dates For the Shows in Southern Wisconsin, So That All Will Be Benefitted—New Combination To Succeed One That Went To Pieces.

In order that all county fairs in Southern Wisconsin may "pull together" it is proposed that a circuit be formed. For that purpose a meeting was held at the Grand Hotel this afternoon.

Among those present were Secretaries J. Kearney of Jefferson, George F. West of Darlington, and G. W. Mundy of Dodgeville. The counties that will be included in this new circuit are Rock, Green, Walworth, Iowa, Jefferson and La Fayette.

The circuit plan has been talked of for some time, but no definite steps were taken in the matter until today.

The object is to arrange all dates to the best interests of all the fairs and for mutual benefit for the different associations concerned. Geo. F. West, of Darlington, in speaking of the matter today, said that for some time past they have had this idea under consideration, but not until within the past few days did they conclude to act. The counties of La Fayette, Iowa, and Green have been included in what was known as the "Lead-Region Circuit," but during the past season the circuit finally disbanded.

The intention now is to abandon a number of the smaller towns and take in Rock county which, on account of its size, will benefit them as well as the Rock County Agricultural Society.

Sharkey and Maher Matched. New York, April 27.—The managers of Peter Maher and Tom Sharkey Monday met representatives of a sporting club as yet unnamed and accepted a proposition for a fight between the principals for a \$10,000 purse, to take place in this vicinity between May 25 and June 10 next.

Brazil and Chile form an Alliance. Buenos Ayres, April 27.—It is understood here that the governments of Chile and Brazil have entered into an alliance with a view to guaranteeing the maintenance of peace in South America.

BURGLARS AT WORK IN SECOND WARD

TWO RESIDENCES VISITED
LAST NIGHT.

At C. W. Cook's Home They Got \$12 or \$14—The Family Saw Them at Work, But Being Unarmed, Feared To Say Anything—Home Talent Suspected.

C. W. Cook stood at a back window last night and saw a burglar empty the valuables out of the pockets of his clothes, in the back yard, sort out the cash, and leisurely stroll away.

Mr. Cook, who is sixty years old, was unarmed, and had no means of calling help. The work was done between 2 and 3 o'clock. Up to noon today complaint had been made by only two families, but there are indications that several houses were visited but not entered.

Mr. Cook had just moved in at 105 Milton avenue yesterday, from South Jackson, where he has been keeping a small bakery, near the bridge. He was tired out with the work of moving, and slept soundly. Just before 3 o'clock his wife was awakened by somebody in the room. She could see a man moving around, and for a moment was frightened to give the alarm. Just as the man was leaving the room, however, she aroused her husband and told him what she had seen. Mr. Cook got up at once and saw that a back window was open. He went to the window and looking out into the back yard could see a man sitting down and emptying the pockets of a pair of trousers. After turning the trouser pockets inside out, the burglar turned his attention to Mr. Cook's vest in which were some papers and small change. Then he laid the trousers and vest down together, put the papers, jack-knife, keys etc. in a pile on top, and strolled away down town.

Thief Got \$12 or \$14.

Mr. Cook did nothing until day light, in fact, there seemed nothing practical to be done. This morning the clothing was brought back in doors and an inventory taken. It was found that the thief had gotten away with \$12 or \$14 in money and a silver watch. He had taken nothing else.

It didn't take very long for Mr. Cook to decide that he had fallen into a very hard neighborhood. Some of his neighbors had reason to think the same thing. William Dutton of 155 Milton avenue received a call from the same man during the night. The Cook burglary occurred just before the electric lights went out. It was fully half an hour earlier than that, when Mrs. Dutton was awakened by the sound of a window being pried up. She aroused her husband and together they listened until it was apparent that somebody was trying to break in. Then a flash of light was seen, and Mr. Dutton jumped out of bed and went on an exploring expedition. As he started toward the back of the house a man jumped out of the window sill of a nearby window. He left some matches on the sill and just outside of the window dropped a candle.

Got No Swag

Mr. Dutton made a tour of the house to see that nobody was in a closet or hallway, and then put on his clothes and went out of doors. He saw that the man had tried a front window before going round in back. A boy's express wagon had been taken from the wood pile and put under the front window so that the thief could climb up and peep in.

Both at the front and the rear of the house and the rear he must have worked under the full light of the arc lamp at the corner. He seemed to show lack of judgement considering the number of dark corners in town that might have been selected.

"I had no money in the house," said Mr. Dutton, "and I do not know what he could have been after, but I object to that kind of visits on principle and I wish I had gotten a sight of him."

At both Dutton and Cook houses entrance was gained through the rear window which seems to have been pried up with a chisel. The window sash was broken fairly in two. All the indications are that the work was done by local talent as it was too crude for an expert.

NASH JAMMED AGAINST SPIKE

Barry Denies, However, That He Used a Stone.

The recent Whitelight club fracas, Barry vs. Nash, received its first airing in the municipal court this morning when the examination of Richard Barry Jr., who is charged with assault with intent to do great bodily harm, was begun. Thomas B. Nash, with a badly battered face, was the first witness, while Dr. James Gibson, W. F. Williams, John J. Griffin and John Mulcairns also testified for the state.

Mr. Barry testified also and said that he noticed that everytime he hit Mr. Nash, his face was jammed against an iron spike in one of the railroad ties. This fact, Barry said, might have led people to think that he had struck Nash with a stone.

The examination was finally adjourned until April 29 and in default of \$600 bail Mr. Barry was remanded to jail. Attorney Wilson Lane defended Mr. Barry, while District Attorney Jackson conducted the prosecution.

MILLER PLAYS SICK TO AVOID LABOR

"WORKED" HOSPITALS IN MANY CITIES.

County Farm Fare Did Not Suit Him, So He Escaped and Walked To Town—Matron Smith, of Oak Lawn, Made Him Own Up—Left Town Yesterday.

It remained for Matron Margaret Smith, of Oak Lawn hospital, to solve the mystery that surrounded the life of Jacob Miller, a hobo, who, after "working" his sick game with success at the Palmer Memorial hospital, as well as at the county farm, tried the same tactics at the Oak Lawn hospital this week where he was unmasked. He finally owned up yesterday morning, and made a full confession.

He said his game was a new one and that Janesville is only one of many towns in which he has worked. Miller, it will be remembered, applied at Dr. J. F. Pember's office just two weeks ago, saying that he wanted to be removed to the Palmer Memorial hospital for the purpose of having an operation performed. He was accommodated and given the best there was to be had.

Delayed the Operation.

After the doctors had assembled, on several occasions, for the purpose of performing the operation, Miller put them off by saying that he would not be operated on until his brother arrived from Milwaukee. The "brother", however did not come and numerous telegrams failed to locate Miller's relatives. During all this time, Miller remained in bed, ate heartily, and had a good time in general.

Friday the doctors concluded that Miller was a fraud, so they notified Poor Master S. B. Kenyon. Mr. Kenyon took charge of Miller Friday and with the assistance of C. C. MacLean, the patient was removed to the country farm. Here he told the same tale of suffering. Supt. Allen gave him the best of care, and he was fed on liquid food so that the operation might be performed with less danger. This was Miller's bill of fare from Friday night until Sunday.

Walked to This City.

Then Miller concluded that this sort of a life was not worth living and began to make his plans for escape. Watching for his opportunity he quietly left Sunday, and walked to town—a distance of three miles. He arrived in town late in the evening, and after taking in the sights, he concluded to pay Dr. U. G. Latta a visit.

The doctor heard his story and his removal to Oak Lawn hospital followed. Mrs. Margaret Smith, the matron, received the doctor and his patient. Miller then told her his story. When he gave his name Mrs. Smith became suspicious, and concluded to investigate. The "patient" was then given the front room and he retired immediately.

Mrs. Smith then questioned him. Miller said he once had a mother, and the thought of her brought tears to his eyes, etc.

He Then Owned Up.

Mrs. Smith left him after the conversation, but at 11 o'clock yesterday morning she entered his room, ordered him out of the bed, telling him that in case he refused, she would have him put out. Miller then made a full confession. He said his illness was all put on; that Janesville was not the only town he had worked; and that all his tales of woe were lies. He is a native born German, and his father and four sisters now live in Germany, but his mother is dead.

Mrs. Smith gave him his dinner and enough money to get to Whitewater. His train left at 4:40 yesterday afternoon, and he promised Mrs. Smith that as the train passed the hospital grounds, he would wave his handkerchief. He kept his word, and as the train passed the hospital, the signal was given.

MRS. STINE WANTS DIVORCE

Martinstown Woman Sues For a Decree in Circuit Court

Upon the allegation of "cruel and inhuman treatment," Mrs. J. W. Stine of Martinstown, bases a suit for divorce against her husband. When the morning train from Monroe arrived, Mrs. Stine alighted and proceeded to the court house where her attorney, Harvey Clark of Monroe, made out the necessary papers and testimony was taken, the case coming from the Monroe circuit. No testimony was offered for the defendant. Mrs. Stine said that during the five years that they had been married her husband had treated her cruelly. They have no children. Judge Bennett spent the day in Madison, but on his return he will probably announce his decision.

Whether they will reside there permanently remains to be seen, but there is little doubt but what the Cream City will be their future home. Mrs. Halsey owns property at the corner of Wells and Twenty-second streets, and Dr. Halsey will open a fruit and confectionery store. During the past few weeks Dr. Halsey has improved but little in health and he thinks that it will require a rest of several months to bring about his recovery.

SYRIANS ARE WED AS CANDLES BURN

INTERESTING SERVICE AT ST. MARY'S CHURCH.

Two Hundred People Heard the Magic Words, Which Were Pronounced in the Native Tongue—Reception Festivities Last All Day Long—Present's In Cash

It took just one hour and ten minutes this morning, at St. Mary's church, to perform the Syrian wedding ceremony. At 8:10 o'clock the carriage containing the groom—Abraham Frenn—and the bride—Josie Schillaty—rolled up to the church and the wedding march to the altar was soon under way. The groom with the best man—Shebel Bohakel—lead the way and following came the bride leaning on the arm of the bridesmaid—Mrs. Frank Schillaty. Rev. Father Basil Souaya, the Syrian priest from Chicago, was in waiting at the altar, attired in his silken gown. He was assisted by Rev. Father R. J. Roche in performing the ceremony. The Syrian language was used.

Syrians to the number of twenty-four were there and they occupied front pews. The women were attired in bright colored dresses and wore shawls over their heads. During the ceremony, the two hundred people present each held a lighted candle.

The Ceremony

Gold rings were passed by the priest from the fingers of the groom to the bride and vice versa. Silver bracelets were used in the same manner only that they were placed on the back of their hands. Wine was partaken of, and throughout the ceremony, the Syrians paid strict attention.

At the close of the ceremony the happy couple were driven to the home of Mr. and Mrs. Frank Schillaty where they were tendered a reception. When a Gazette representative called all was merriment within the house. In one room eight men—two children, and eight women—were making merry, while the newly married couple were seated by themselves in one corner.

Syrian candy, nuts and wine formed the refreshments, and a keg of Janesville beer was seen. Pipes, imported from Turkey, stood on the floor, and while the women puffed away at them, the men smoked cigarettes and sang Syrian songs.

Festivities Last a Day.

These festivities will last throughout the day, and into the night. In the way of wedding presents, they were the recipients of many gifts of money. The Syrians say this is their usual custom, for it then allows the bride and groom to purchase just what they want.

"If we were in Syria," remarked one of the men, "this wedding would be celebrated by hundreds of our people who come from hundreds of miles away. There would be dancing and singing for days and Syrian wine would be as free as water."

"It is different here you see," remarked one of the women, "but although there are but few of us here the festivities will be none the less joyous."

A PEOPLE OF FEW WORDS.
"Let your speech be yea, yea, and nay, nay," says the Good Book, "for whosoever is more than these cometh of evil." The Shakers abide by the spirit of this rule. Their words are few, simple, sincere and direct. They waste no energy in idle talk; they use it in thinking and doing. And whatever they do they do with their might. They are content with nothing short of the essence and principle of the things they investigate. They take pains and are patient. And thus the doors of many strange truths open to them. In this way they discovered what may almost be called the unity of diseases. A venerable Shaker says of it: "It is said that one man's meat is another man's poison. That is but half the truth. Any man's meat is any man's poison, under certain conditions. If the grain never got further than the hopper we should never have bread; and if bread never got further than the stomach we should never have strength. When the stomach is torpid, helpless and inflamed the food lies in it and rots. This fermentation produces poisons which may, and often do, disorder every other organ and function of the body. This is indigestion or dyspepsia, with many symptoms and disguises. Cure it and you cure nine-tenths of your complaints." These words were uttered many years ago. Since then they have found a remedy, now known as the Shaker Digestive Cordial. It is made from medicinal plants cultivated by them. It is a food and digests other foods. Taken while eating it rests the stomach and nourishes the system. The pain and distresses of dyspepsia disappear before it. It prevents fermentation and soon restores full power to the digestion. It succeeds in the worst cases. It is worthy the name of the people whose name it bears. Any druggist will sell you a trial bottle for ten cents.

THE KIDNEY BLOW

That Is the Knockout Which
Death Administers to
Brainy Men.

Attacks Their Kidneys and Gradually
Poisons Their Blood—Insomnia and
Nervous Prostration Follows—Then
Dark Despair.

Ah, but that was a sad story which
the wires brought from the city of St.
Louis on the closing day of 1896. Big-
brained J. B. McCullagh, the famous
editor-in-chief of the Globe-Democrat
of that city, maddened with the slow,
but relentless, approach of death, put
an end to his sufferings by leaping
from his chamber window and dash-
ing out his brains on the pavement be-
neath!

The dispatches said that he died of
a combination of bronchitis and
Bright's Disease. He had long been a
sufferer from kidney troubles and at
length the arduous duties of the recent
election campaign had enfeebled other
organs. He was confined to his bed
by what the doctors called "nervous
prostration." He was dying by inches.
He knew it. He was not insane, but
he knew that sooner or later he would
be. Better a quick death than a linger-
ing one.

This Bright's Disease is a horrible
foe to health. It attacks men of brains
men of energy and great activity, men
who overwork themselves. The kid-
ney's office is to remove waste from
the body. If a man lives intensely,
and wears himself out two rapidly
there is more waste than the kidneys
can get rid of.

The kidneys not only wear out, but
the un-rid-of waste is sucked back in-
to the blood again and poisons it.

You might as well inject a rattle-
snake's venom into the veins of a man
and expect him to enjoy good health,
as to expect a man to live long who
has Bright's Disease.

Stopping work may stop creation
of excessive waste. Rest and change
of scene, sea voyages, and what not,
are all well enough in their way.
But the real way to treat Bright's Dis-
ease—disease of the kidney—is to
heal the kidneys, restore them to nor-
mal condition, and then having start-
ed anew, a man will do well not to
overwork these delicate organs there-
after.

What remedy will heal and restore
the kidneys?
But one that is known to science—
a prescription that has been tried and
never found wanting. That is made
by the Dodd's Medicine Company of
Buffalo, and sold at all druggists.
Dodd's Kidney Pills cure Bright's
Disease.
Price 50 cents a box.

Taking Orders.

Mrs. Brown—Did you know that Mr.
Vestment is going into the ministry?
Mrs. Greene—No. You surprise me.
I thought he was going to be a waiter
in an eating house. His mother told
me he was going to take orders, you
know.—Boston Transcript.

Loquacity a Virtue.

Why should loquacious girls be belles?
Pray answer me this riddle,
I make a guess, it is because
Their tongues hang in the middle.

Wilder with such a family tree back of
him and money and time to burn, gets
blue every now and then.
She—Perhaps it is his blue blood hav-
ing effect.—Cincinnati Tribune.

One Hindrance.

Ned—I'd marry that girl if it weren't
for one thing.
Tom—What's that?

Pinter—She is not only a fine looking
girl, but they say she has a fortune in
her own right. What would you do if
you had a wife like that?
Minter—Nothing.—N. Y. Journal.

Well Arranged.

"Mrs. McSmith returned us much
cheaper coffee than she borrowed of us."
"Well, put it in a jar by itself and
lend it to her when she comes again."

greatly disappointed in the matter of
her dowry."—Chicago Post.

One Important Change.

A MODERN POCAHONTAS.

Lives Saved Every Day by Indian Sa-
gacity, in a Way that Rivals the
Bravery of the Indian Girl of Old.

The Wonderful Power of the Indians to In-
terpret the Secrets of Nature.—A God-
send from the Dark Ages that has Now
Been Given to Civilization by the North
American Indian.

Everyone remembers the story of Pocahontas, who, when John Smith was brought before
her father, Chief Powhatan, away back in 1607, and was condemned by him to death, fell
upon the white captive's neck as the blow of the executioner was about to descend, and saved
his life, afterward marrying him, their descendants to-day, according to tradition, being found
among the oldest families of Virginia. This little
instance of Indian nature
is repeated to us in our
every day life. The
Indians may not actually
be with us, but
that which is the
fruit of their
labors and is the
embodiment of
their knowledge
and learning, as Nature
taught her lessons, is
ours. The Kickapoo
Indian Remedies, which
are sold throughout the
land to-day by drug-
gists, are the same medi-
cines and are made in
the same way that the
Indians prepared their
remedies hundreds of
years ago, when they—
in their primitive state—
first learned that with-
out proper care sickness
would ensue, and when
from the body. Perhaps the Indians did not know cause and result, but they did know
Nature. They understood her marvelous ways. Instinct taught them the great medical
virtues of the herbs, roots, barks and gums of the forest. They recognize the great fact that
we are told to

"Seize on truths wherever found,
Whether upon Christian or on heathen ground,
Whether among our friends or our foes.
The plant's divine where'er it grows,"
and of these plants the Indian learned the secret of long life and good health, to such a degree
that it has become a matter of history. To sufferers, no matter where nor from what, learn
the Indian's secret by taking the remedies he used and health will again be yours. Bear in
mind the fact that the Kickapoo Indian Remedies cure whenever a cure is possible, and are
always harmless, containing no poisonous ingredients of any description.
Send to the Kickapoo Indian Medicine Co. for book entitled "The Kickapoo Doctor,"
which will be mailed to you free, and is filled with information concerning symptoms of
disease, their treatment and cure.
